

MICHR LARGE-SCALE GRANT SUPPORT

Large-scale grants, such as NIH U- and P-series mechanisms, provide an opportunity for you to collaborate across disciplinary boundaries to tackle complex research problems. Developing a large-scale grant requires significant advanced planning, a compelling research vision, and a history of partnership among team members. To encourage the pursuit of large-scale grants, MICHR has developed a portfolio of support services that is available to research teams across the university.

To discuss how MICHR can provide personalized support for your large-scale grant, please contact us at MICHR-RDC@umich.edu.

SUPPORT OPTIONS

1. Strategic Input
2. Resources
3. Proposal Management
4. Grant Editing
5. Education
6. Research Jams

LARGE-SCALE GRANT SUPPORT

WE CAN HELP WITH:

1. STRATEGIC INPUT

MICHR faculty and staff grant experts can help you conceptualize and refine a large-scale grant, advising on the overall research vision, coordination of projects and cores, study design, biostatistics, and potential collaborators.

2. RESOURCES

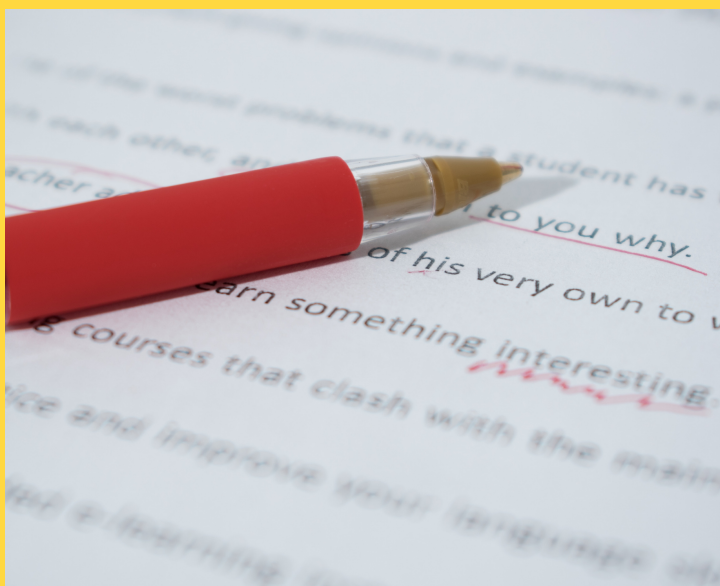

MICHR grant experts can create tailored writing templates and provide reference materials and examples to guide you in developing and writing your large-scale grant.

LARGE-SCALE GRANT SUPPORT

WE CAN HELP WITH:

3. PROPOSAL MANAGEMENT

We can create timelines, checklists, and communication plans to improve the efficiency of the grant development process.

4. GRANT EDITING

MICHR's grant editors will review for logic, flow, and clarity of ideas across the various components of your large-scale grant.

LARGE-SCALE GRANT SUPPORT

WE CAN HELP WITH:

5. EDUCATION

We can host informal roundtable discussions about the foundations of large-scale grants with interested faculty and staff.

6. RESEARCH JAMS

We can create facilitated experiences that help you build collaborations and shared research agendas as the foundation for a future large-scale grant.

LARGE-SCALE GRANT SUPPORT

Our large-scale grant services are ideal for teams who are responding to a specific funding opportunity announcement as well as for those in the earliest stages of research ideation and team building. We also regularly pilot new team science and research development offerings. The earlier you contact us, the more support we can provide along your journey to large-scale grant success.
